

Hello Health & Safety Committee Member,

Thank you for your inquiry on our **Workplace Safety Initiatives**.

As is the usual with **newbie inquiries**, what follows is a brief the following "who\where\why\what\where" of our company and safety products:

- **Summary** of our three (3) popular Workplace Safety Initiatives
- And as requested, **Quote** for our Workplace Safety Initiatives Sample Kits

===== **Our Workplace Safety Initiatives**=====

Working safely in a safe environment is everybody's business and it not only benefits you and your organization, but also fellow workers, new-hires, students, visitors and even your family.

Accidents will happen but many can be prevented following safe work procedures and practices. We all need to be safety-conscious each and every day not only while at the workplace premises but at home and while traveling as well.

The following presentation objective is to share with you **three (3)** Safety First Initiatives that can help prevent accidents and injuries in the workplace:

1) **Workplace No Jewellery Program**

Work environments prone to jewellery-related accidents and injuries are manufacturing, processing, packaging, wholesale, distribution, construction, oil and gas, forestry, mining, public works, health care, waste and recycling, airline, telecommunication, transportation, agriculture, retail, restaurant and police/firefighters/military industries and sub-sectors.

After website\trade show inquiries from health and safety co-ordinators and plant managers, three (3) years ago we launched our **Workplace No Jewellery Program** at Health and Safety Conventions and Trade Shows à la the IAPA\CCOHS\CSSE\CSST.

Increasingly **procured** as part of personal protection equipment (PPE) budget, our **Workplace No Jewellery Program** assists JHSC members **put into operation no jewellery policies, raising awareness and facilitating enforcement on a DAILY basis** with permanent\temporary workers, young\student employees and plant visitors (government inspectors, VIP's, plant tours) **at risk of jewellery-related accidents and injuries.**

The program is implemented in **two phases**:

Phase 1 handles the essentials of the safety initiative --- Equipping employees with the **LeClasp Worker Jewellery Holder (#1250)** to attach any-and-all jewellery **BEFORE** walking in the place of work.

Phase 2 equips workers wearing **Medical Alert ID jewellery (5-15%)** with the **THREE (3) unique "NON-DANGLING" substitute (replacement) products** that can be **SAFELY BE CARRIED** and **KEPT ON THEIR PERSON** in the place of work. Including the

Recommended employee handout to make the strict no jewellery program launch and transition easier. Mostly helps **safety supervisors highlight the dangers and increases awareness** on a daily basis, especially with **"high risk" new hires and young trainees** during the transitions period. Workers will have no more excuses.

PHASE 1 -
#1250
Worker
Jewellery
Holder

PHASE 2A - **OR**
#1350
Medical Alert
Identification
Key Holder
(Personalized)

PHASE 2B - **OR**

2) Off The Job "SAFETY FIRST" Initiative

For many organizations, there are now more serious injuries happening to employees **OFF THE JOB** (home gardening, playing with kids in parks, garages, back yards, kitchens, practicing sports, vacationing, etc.) that are having a MAJOR impact in the workforce that it is becoming a serious issue.

LeClasp™ Safety First Branded KEY Holders (#1450) are an effective vehicle (giveaway, handout, promotional medium) to get your work safe messages and practices **ACROSS TO WORKERS**.

The patented multi-function key holders are handed out to workers arriving decorated with YOUR choice of 100+ Safety branded messages/slogans on the **FRONT side** and, the organization logo and JHSC safety slogan displayed on the **side**.

The **most significant impact** of this safety initiative occurs when employees/workers/part time workers/students/visitors **family members and friends INQUIRE** about the **Who? What? Where? When? Why?** of the **VERY VISIBLE** Safety First warning/reminder/reinforcement message and slogan. **WOW impact guaranteed.**

Recommended WORKER giveaway as part of a **health and safety initiative** (safety-themed seminars, workshops, meetings, new-hire (student) orientation classes, annual NAOSH safety week activities, commemorating safety milestones, etc.) that **reward or commemorate** workers safety achievements.

3) Year Round Against Impaired Driving Safety Initiative

Are JHSC members **searching for new, exciting and exclusive safety initiative idea** that saves lives? Or are you sick and tired handing out to workers travel mugs, pens, caps or t-shirts at safety meetings, workshops, annual NAOSH Safety Week, summer family picnics, company golf tournaments or Christmas parties??

Our **Year-Round Against Impaired Driving Safety Initiative** incorporates the **LeClasp™ KEY Holder (#1450)** as the giveaway promotional product. Decorated with the organization logo and JH&SC safety slogan on **FRONT side** and a "Don't Drink and Drive" safety message with the telephone number of a TAXI Fleet Service in your town displayed on the **BACK side**.

Utilized 24/7, can you envision **family members and friends reactions** (Who? What? Where? When? Why?) **EACH TIME** employee/workers utilize the key holder to call a TAXI!?!?!

This workplace safety initiative will **generate year round goodwill** for your company. **WOW'S IMPACT TOO! GUARANTEED.**

Recommended health and safety initiative handout to workers that **rewards/commemorates** safety achievements, present at annual **family events** (summer picnic/BBQ, Holiday Season party); corporate tournaments giveaway (golf, curling, softball), unique handout to booth visitors at conventions/trade shows, fundraiser events, etc.

NOTE: For an additional fee, you can **snugly tuck** into the packaging with the LeClasp Key Holder a... **Single Use Breathalyzer Tester!**

Year Round Against Impaired Driving Campaign

Against Impaired Driving Initiative includes the LeClasp Key Holder (#1450) decorated with the organization logo and JH&SC safety slogan on the **FRONT** side and displayed on the **BACK** side, your choice of a) Don't Drink and Drive, b) You Drink You Lose or c) Drink Responsibly drive safely safety message (#1252) with underneath, the "telephone number" of a Taxi Fleet Service in the area.
