

FINALLY...

A place to keep your jewellery safe while you Golf!

Most golfers remove rings, bracelets and wristwatches before putting on a golf glove and teeing off.

Low-handicapped players do this for comfort while new players do it to prevent blisters.

Sometimes the result is more than they bargained for. Sometimes the result is **lost jewellery**. Expensive wristwatches disappear. Precious wedding rings vanish in golf bags. (Try explaining this to a spouse!!!)

Here's a neat multi-application product that will not only resolve this specific GOLF-related problem, but will be used daily after your golf event is over.

The Le'Clasp Key Management System™

Le'Clasp™ is a system designed to manage keys efficiently and securely, while preventing the daily FRUSTRATIONS associated with key holders on the market today.

Each Le'Clasp™ is equipped with four (4) split rings that let you smartly GROUP frequently handled keys into "SETS" of 2-8 keys per ring. For those of us with a countless number of keys, the modular design easily expands to hold up to nine additional "sets" of keys.

sales consultant for details

But what differentiates the Le'Clasp™ from other "key chains" on the market place today is the ingenious, patented Multi-Ring Quickie-Release™ Feature that opens with just a firm squeeze at the centre -- for the quick, easy removal and addition of the "SETS" of keys... and of your jewellery!

Yes... Le'Clasp™ manages JEWELLERY TOO!

Another delightful application of the Le'Clasp™ is to keep valuable, precious jewellery from being lost while working or EXERCISING. It's perfect for anyone who needs to remove jewellery, occasionally or daily, for COMFORT (GOLFERS), SAFETY (team sports players), HYGIENIC (doctors, nurses), GERM-FREE (lab technicians, cooks), or SECURITY (plant workers) reasons. WOW!!!

Here's Another Great Idea!

For maximum impact on golf day, how about giving out Le'Clasp™ at registration. Dedicate an enthusiastic (and darling) person to ask golfers to hand over ALL the jewellery they will remove before teeing off. S/He should then demonstrate just how the Le'Clasp™ will change their lives, not only on the GOLF course, but daily.

This is one promotional gift that won't get thrown into the junk drawer or (gasp!) the trash bin after your golf event because it responds to recipients real DAILY and GOLF-related needs.

Watch how your customers, vendors and employees react (total shock) and listen to their observations ("Magic! No more chipped fingernails! No more lost rings! Why didn't anyone think of this before?").

The Le'Clasp Key & Jewellery Management System™ will be the talk of the day.
