White Nickel**

Choice of 15+ Sports Jewellery-Related Safety Emblem

Recommended  
one (1) per  
Athlete

Price Points -  
\$6.00 to \$7.00

Indoor and outdoor SPORTS injuries can happen when JEWELLERY worn by participants comes in contact with 1) players on his/her or opposing team members (contact sports like football, basketball, soccer, hockey, martial arts, etc.) and/or 2) sporting equipment (gym training equipment, fences in parks, walls, pools, etc.)

That's why coaches and parents are constantly hounding children to take off earrings, body piercings (nose rings), rings, wristwatches, and other hanging/dangling accessories that could cause harm.

Earrings in particular are prone to being torn from earlobes when contact is made. Body piercings and rings are unsafe too.

By removing these pieces of jewellery and items of this nature, teams can prevent disfiguring injuries.

Also, many amateur and professional athletes remove jewellery for comfort reasons, to prevent blisters, cuts and contusions.

Likened to a "portable jewellery box", the LeClasp Sports Jewellery Holders are recommended handouts for sports leagues where strict safety rules FORBID participants/athletes to wear "bling bling" in gyms, team practices, games and tournament competition.

A simple squeeze on the thumb pads and voila, athletes rings, wristwatches, bracelets, necklaces and most earrings/body piercings are kept safe & secure - protected as one - ready for safekeeping in padlock locker, car glove compartment, sports bag or... coach/parent pockets,

As well, athletes ultimately lose less valuable and precious jewellery too.

Cherished year-end team gift, corporate sponsor and tournament souvenirs.

The LeClasp Sports Jewellery Holder comes decorated with your choice of Sport safety emblem on the FRONT side, and optionally the BACK side, with a team/league crest or sponsor logos. Packaged in zip lock poly bag & explicate leaflets.
