The Gym Safety Jewellery Holder

Front Side Emblem

Back Side Emblem -

Optional assoc., league, team or sponsor logos

SKU # 1250 - White Nickel

Choice of 15+ Sports Jewellery-Related Safety Emblem

Recommended one (1) per Athlete

Indoor and outdoor SPORTS injuries can happen when JEWELLERY worn by participants comes in contact with 1) players on his/her or opposing team (ie. soccer, football, basketball, hockey, martial arts) and/or 2) gym equipment/walls, fences in parks, pools, goal nets, etc.

That's why coaches and parents are constantly hounding children to take off earrings, rings, wristwatches, body piercings (nose rings), and other hanging or dangling accessories that could cause harm.

Earrings in particular are prone to being torn from earlobes when contact is made. Body piercings and rings are unsafe too.

By removing these pieces of jewellery and items of this nature, players in team sports and participants prevent disfiguring injuries.

Also, many amateur and professional athletes remove jewellery for comfort reasons or prevent blisters, cuts and contusions.

Liken to a "portable jewellery box", the **LeClasp Athlete Jewellery Holder** is a unique way to secure precious jewellery and give peace of mind when they have to be removed to prevent related injuries.

A simple squeeze on the thumb pads and voila, athletes rings, wrist-watches, bracelets, necklaces and most size earrings/body piercings are fed onto a strong clip - kept safe, secure & protected as one - ready for safekeeping in padlock gym locker, sports bag, car glove compartment or... coach/parent pockets,

As well, athletes ultimately lose less valuable and precious jewellery too.

Recommend sports safety handout where strict rules FORBID athletes/ participants to wear "bling bling" when training with gym equipment or team practices, games and tournament competition.

Cherished year-end team gift, annual membership subscription renewal gift, corporate sponsor giveaway, tournament participant/volunteer souvenir, consolation prize, etc.

PPPC 960108
